

Meets ANSI/ESD S20.20 tested per ANSI/ESD S1.1 and ESD TR53

Made from stainless steel, the durable premium performance metal wristband creates a reliable electrical contact to the user's wrist. The metal expansion bands are used for durability and comfort. Each link is covered with an insulative plastic cap. Use with single-wire coil cord with 4mm female socket snap (not included).

Properties	Typical Value
Metal	Stainless Steel
Elasticity	Expansion 1.5:1
Contact	360 degrees around wrist
Color	Black
Snap	4mm
Wrist Strap System (when worn)	< 3.5 x 10 ⁷ ohms
Resistance Interior	< 1 x 10⁵ ohms
Resistance Exterior	> 1 x 10 ⁷ ohms
Band Circumference Small Medium	Min. Max. 5.75" 6.25" 6.63" 7.13"
Large	7.25" 7.75"
